

MZU-HAMP Agro Foods (A small scale Start-up of the dept. of HAMP)

The Honorable Vice Chancellor of Mizoram University Prof. K. R. S. Sambasiva Rao inaugurated the MZU-HAMP Agro Foods at the Department of Horticulture, Aromatic and Medicinal Plant yesterday evening (15th Nov, 2018). This is a start-up initiative taken by the department of HAMP, Mizoram University.

Through this start-up project, a number of processed horticultural products such as Jam, Jelly, Juice, RTS, Pickle, Candy etc., will be available for sale in the department of HAMP, Mizoram University at cheap rates. All products are fresh locally grown fruits and vegetables without the use of chemicals, with food grade packing materials, only permitted preservatives and hygienic conditions.

The MZU-HAMP Agro Foods is a small scale start-up with a view to promote processed agro-based foods and to make value added products for the purpose of training, research and resource generation. This initiative taken by the department is the first of its kind amongst Universities in the North East Region to start its own commercial produces available for sale to the public.
